

BRAND GUIDELINES

How we present EDM Holdings.

A short, practical guide to using the EDM Holdings identity — the mark, the colours and the type — so everything we put our name to looks like it came from the same firm.

THE MARK

One logo, used properly.

Our logo is the three-tone cube alongside the EDM Holdings wordmark and the line that says exactly what we do. Used together, they are the primary lockup — this is the version to reach for first.

The cube is built from three faces: the dark emerald front, and two greys that give it depth. Those greys are part of the mark. Don't swap them for the accent green or flatten them to one tone.

Clear space

Keep a margin around the logo at least as tall as the "E" in EDM on every side. Nothing — text, images or edges — should crowd it.

Minimum size

Don't reproduce the full lockup below 30 mm wide in print, or 150 px on screen. Below that, use the cube on its own.

VARIANTS

Three versions, one identity.

PRIMARY — ON WHITE

REVERSED — ON EMERALD

CUBE MARK — ICONS & SMALL SIZES

Use the **primary** lockup on white wherever there's room. Use the **reversed** version on an emerald or dark ground. Use the **cube on its own** for favicons, app icons, avatars and anywhere the wordmark would be too small to read.

GETTING IT WRONG

Please don't.

The quickest way to make the brand look cheap is to alter the logo. A few firm rules:

✗ Don't recolour the cube or the wordmark, or change the two panel greys.

✗ Don't stretch, squash or rotate the logo.

✗ Don't add shadows, gradients, outlines or glows.

✗ Don't rebuild the lockup or move the wordmark around the cube.

✗ Don't place it on a busy photo or a low-contrast colour.

✗ Don't use the old bronze or bone versions — they're retired.

COLOUR

White and emerald. That's the brand.

We build on a white background with a single emerald accent. The rest are quiet neutrals for text and lines. No bone, no sage, no bronze.

TYPOGRAPHY

Montserrat, throughout.

One typeface does everything — headlines, body, captions. It's clean, modern and easy to read at any size. Keep it consistent and don't introduce a second font.

Aa Bb Cc

MONTSERRAT · LIGHT 300 · REGULAR 400 · SEMIBOLD 600 · BOLD 700

Headlines

Bold (700), tight tracking. Short and direct.

Body

Regular (400), generous line spacing for easy reading.

Labels

Bold, uppercase, wide tracking in emerald.

Montserrat is embedded in our website, documents and templates, so it renders correctly everywhere — no need to rely on a font being installed.

HOW WE SOUND

Plain, direct, specific.

- Say what we do and what we've done. No jargon, no filler.
- Lead with the point. Short sentences do more work than long ones.
- Be specific — a real project, a real number, a real trade.
- Confident, not boastful. We let the track record carry it.
- UK English, always.
